

TAILOR MADE CLOTHING.

SPECIAL LINES FOR SPRING.

GARDINER & BAXTER.

CITY NEWS IN BRIEF.

Mayor Stuart seems very lenient in giving licenses to street corner peddlers. A concert-singing lecturer monopolized Campus place last night, and the nuisance was very noticeable and annoying, inasmuch as the adjacent streets were nearly blocked and impassable.

There is a vigorous kick by the residents of the south end on account of the procrastination of the contractor in laying the South Division street sewer. The delay hinders work on the car line, and they are very anxious over the prospect for transit facilities.

Every hat, trimmed or untrimmed, of the most stylish straw or crepe, and all kind of salons, even wig-like, are the latest from New York, for ladies, must be closed out, at and below cost in Berwin's millinery parlors, No. 27 Canal street.

Messrs. Warf, Burns, Hopkins and Trowbridge of Kalamazoo are in the city. They are well known as breakers of clay pigeons and will show the members of the Grand Rapids Gun club how it is done at the shoot this afternoon.

The work of staining the borders of the office floors in the government building was completed yesterday, and the officials will soon have their rooms carpeted and ready once more to settle down to business undisturbed.

The Custer Guards and Lines Rifles will attend the Grand Rapids Guard's prize drill tomorrow evening in full uniform.

George L. Erwin, A. D. Fleming and George A. Magoon are in the city, looking the sale of Hackley park lots.

The Street Railway company has nearly completed the work of removing the old cable bed from Lyon street.

C. H. Adams, business manager of the Ludington Entertainment company, is a guest at the Morton.

F. H. Kerstead of Muncie, Ind., is visiting his brother, Dr. W. Kerstead of this city.

The brewers' picnic which was announced for to-day has been postponed one week.

W. Y. Barclay of Studley & Barclay is in New York on business for the firm.

Charles Frye, Fred Denny and George Keck will spend Sunday at the beach.

Wurzburg's band will give a concert this afternoon at John Ball park.

Bishop Gillespie will conduct services at Stoughton today.

Conductor Powers, who was struck with a stone by E. E. Johnson yesterday, is still alive and Dr. Edwards, who

SALES AND LEASES.

The Real Estate Situation the Past Week.

Unusual Activity in Home and Business Property, Improvement and Erection.

The building season, somewhat delayed by the long continued rains of spring, may now be said to be fully inaugurated. Scarcely a street or avenue of the city fails to show some progress in building or repairs. Throughout the residence part of the city innumerable homes are being built. For the most part these are of a high grade of wooden construction, and are of the best middle class buildings. Activity in this line is greatly increased in the remote sections of the city, within the territory which has been brought into quick communication with the business part of the city.

The outlying districts of this city afford unequalled advantages for home building. The topography of the landscape, together with its geological characteristics, make our suburban property desirable. For the most part the outlying districts are high and afford abundant pure water. The rapid march of the city's progress is taking to those districts the full advantages of central locations, and gas, water, sewer connections, street car service and electric lights are already within this territory. Another, and perhaps the greatest reason why suburban building is especially active, lies in the fact that property of this class, in common with all our city residence property, is obtainable at small prices. The fact is plainly patent to any observer of real estate values in outside cities that homes and residence property may be bought in this city at the present time cheaper than in any other city of the same, or even "half the same size" of Grand Rapids. Lots are obtainable within fifteen minutes' ride of the heart of the city for sums that would not be deemed exorbitant in many villages throughout the state. That houses may be cheaply built in the city goes without saying. It is a notorious fact that good homes have been built in this city for less money than would have produced the same homes in any other place in the country. Activity in the construction of business property is now fully on for the season. Work on the construction of the Bridge block commenced last week, and will be carried forward with all possible speed. The Michigan Trust company's building, the finest commercial structure in the state of Michigan, is rapidly approaching completion and needs only a few days more for readiness for occupancy. The last touches of interior decoration and the arrangement of office furniture are all that remains to be done.

The greatest interest now centers in the erection of a new and commodious theater building for the city. A fully equipped opera house, capable of staging the best dramatic productions of the day would be generously patronized in the city, and would fill a long felt want.

City Teachers.

LONDON. The greatest opportunity ever offered in Grand Rapids to study music and art during the summer months is presented by the Western Michigan College Conservatory. The mere announcement of the fact that these artists, well known to the musical world, will conduct a summer school of music, should be enough to stimulate the desire of every lover and student of music to participate in the work and become a student. No mistake will be made in acquiring a musical education from these teachers, as they are experienced, cultured and fine artists.

A special feature of this summer school will be teaching teachers how to teach music in public schools. Mrs. Bryant of New York, a teacher of large experience in this line, will have special charge of the work. All teachers who have their own best interests in view will avail themselves of this opportunity.

Mr. Landon, dean of the conservatory, is now at the college and may be seen at any time in relation to all matters pertaining to music, either instrumental or vocal.

A summer school for all branches of industrial and pictorial art will be conducted in charge of Miss Minnie L. Davis, well known to every teacher in this city. This special course is planned to meet the requirements of teachers in the art work of the public schools.

Has the World by the Tail.

Mr. Levi, the enterprising proprietor of the Model Hat store at No. 103 Canal street, is creating quite a sensation in mercantile circles these days. It seems that recently he secured, through the exercise of unusual sagacity, a very well selected stock of umbrellas, shirts, etc., etc., which are a part of the class of goods which he ordinarily carries in stock. These goods he promptly marked down to such a figure as to ruin his competitors' trade and make competition with him impossible. The sale opened yesterday and, of course, the store was packed with customers from morning till night. The goods sold are fine under shirts and they are being sold at 39c, straw hats are selling at from 25c to 50c, and all kinds of negligee shirts are going for next to nothing. It's a great "snag" for Mr. Levi, but it is death to his competitors. The sale continues until July 4.

STRUCK BY LIGHTNING.

Miss Genie Bowen's Miraculous Recovery. Saved by Dr. French's Wonderful Magnetic Power.

The Days of Miracles Not Passed.

Hundreds of Hopeless People Relieved of Their Infirmities—Still at the Vendome, Junction of Monroe and Fulton Sts.

Miss Bowen writes from Lansing, Mich.: "I shall be pleased to give you a detailed statement of my case, and of your remarkable success in handling it. The facts are these—some thirteen years ago I was unfortunate enough to receive a dangerous shock of lightning, from which I remained entirely unconscious for more than four hours. The chief effect was confined to the entire left side of the body. After a while the difficulty gradually subsided in a measure, but left a feeling of numbness, principally in the left arm, but extended more or less over the entire left side. Withal, the stroke left me with a bad heart difficulty, so that I could not lay on my left side. As may be supposed, my brain gave much distress therefrom. As time wore on my arm continued to get worse until last November I lost complete use of it, while the severe pains were so agonizing I was unable to sleep for nights together, walking the floor and carrying my arm on a pillow, and for weeks I was unable to dress myself. Hearing of your great success in curing different cases I determined to have you undertake my case. I came to your office, an examination followed, and today I am wholly recovered to health. My arm and side are all right and I can sleep on my left side without discomfort, and I desire to inform sufferers, that they may also know where to apply for aid when all other means fail. I shall never be able to fully thank you for my miraculous cure." Mrs. King, wife of Capt. S. J. King, 36th street, Washington, was for 14 months a great sufferer from bronchial difficulty. She was at times unable to swallow food, and the pain was intense. The throat was much inflamed and she endured a great deal of agony from four of disphoria. This case came under the treatment of Dr. French last January, and in two magnetic treatments was entirely cured. Mrs. King called on Dr. French in April with her husband, and stated that she had not been in the least troubled since the last magnetic treatment in January, and was entirely well. She can be referred to at any time, as can her husband, who was cured of catarrhal deafness. Members of the best families in Grand Rapids and vicinity and all through Michigan, are among Dr. French's patients, and all express themselves as highly pleased with his peculiar mode of treatment and wonderful gift of healing. When you are tired of experimenting with doctors go to Dr. French at The Vendome, Junction of Monroe and Fulton streets. Consult him and be cured. Office hours from 9 a. m. to 6 p. m. Consultation and advice free, and private at all times. Letters of inquiry must contain stamp.
